مرفق: سياسة شهادات الاختصاص المعترف بها من قبل إدارة التخصصات الصحية لأطباء الأسنان

DHP's new approved specialty qualifications list for Dentist in the State of Qatar

No. 1 Policy Statements

- The following scopes of practice are evaluated according to the Dentists' Approved Specialty Qualifications list: *Periodontics, Orthodontics, Pedodontics, Endodontics Prosthodontics, Oral Medicine, Public Health Dentistry, Orofacial Pain, Oral Surgery, Oral and Maxillofacial Surgery**, *Restorative Dentistry***.
- A Minimum of 2 years full-time specialty clinical education program is required for all specialty Qualifications: **Except** for Oral Surgery, Orthodontics and “Oral and Maxillofacial Surgery” minimum of 3 years full-time specialty clinical training program is required.

Definition:

In determining the eligibility of an applicant for registration with Department of Healthcare Professions (DHP), the following definitions for each category to be considered:

Category 1: Holders of these Qualifications can:

- Get the **Specialty Title without** post-certification licensed work experience.

Category 2: Holders of these Qualifications can:

- Get the **Specialty Title** after **TWO years** clinical licensed work experience post qualification degree.

Category 2 with Asterik **

- Get the **Specialty Title** after completion of **THREE years clinical** licensed work experience post qualification degree.
- For Qatari and family sponsored Dentists: **TWO years** clinical licensed work experience post qualification degree.

Notes:

- **For overseas/ Non-family sponsored applicants:**
 - ✓ A Dentist who has a post-graduate degree which is not included in DHP's approved specialty qualifications list cannot be licensed in the state of Qatar as a Specialist nor as a General Dentist.
 - ✓ A Dentist who has a **post-graduate degree** which is included in the DHP approved speciality qualifications list but has not completed the required years of work experience as per his/her post-graduate certificate category, will be licensed as a General Dentist and can apply for noncore privileges in their respective specialty scope. **However, he/she will not be eligible to apply for change scope of practice to Specialist in the future.**

- **For Qataris /Family sponsored resident applicants:**
 - ✓ A Dentist who has a **post-graduate degree** which **is not included** in the DHP approved speciality qualifications list will be licensed as a **General Dentist** and can apply for non-core privileges in their respective specialty scope. However, **he/ she will not be eligible to apply for change scope of practice to Specialist in the future.**
 - ✓ A Dentist who has a **post-graduate degree** which **is included** in the DHP approved speciality qualifications list but **has not completed the required years of work experience** as per his/her post-graduate certificate category will be licensed as a **General Dentist** and can apply for non-core privileges in their respective specialty scope to complete the required years of experience to be licensed as specialist. **He/ She can then apply for change scope of practice to Specialist once he/she attains the required experience and the change scope application will be evaluated by a specialized committee . However, if the Dentist does not have approved non-core privileges, he/she is not eligible to be Specialist.**
- **For currently Registered/licensed General Dentists:**
 - ✓ A Dentist who has a **valid license or evaluated** (holding valid evaluation from DHP) and has a post-graduate degree which **is included** in the DHP speciality qualifications list but **has not completed the required years of work experience** can apply for non-core privileges in their respective specialty scope. **He/ She can then apply for change scope of practice to Specialist once he/she attains the required experience. The change scope of practice application will be evaluated by a specialized committee. However, if the Dentist does not have approved non-core privileges, he/she is not eligible to be Specialist.**
 - ✓ A Dentist who has a valid license or evaluated (holding valid evaluation from DHP) and has a post-graduate degree **which is not included** in DHP's approved specialty qualifications list can apply for non-core privileges in their respective specialty scope. However, **he/ she will not be eligible to apply for change scope of practice to Specialist in the future.**
- ***For applicants applying as Specialist (Restorative Dentistry):**
 - ✓ Applicants holding one of the below certificates shall apply for evaluation as General Dentist provided that their degree is among the DHP Dentists' Approved Specialty Qualifications list:
 - ❖ MDS Conservative Dentistry and Endodontics
 - ❖ MDS Conservative Dentistry
 - ❖ MDS Restorative Dentistry
 - ❖ MDS Operative Dentistry

- ✓ Upon approval of the evaluation application, applicants can apply for non-core privilege in Endodontics and /or Prosthodontics.
- ✓ Further, applicants can apply for change scope of practice to change their scope to Restorative Dentistry based on the approval of the non-core privilege application.
- ✓ This policy shall cancel circular No. 19/2016.
- ****Licensed Oral and Maxillofacial Surgery (OMFS) Specialists** can perform all core privileges and **non-core Privileges of Oral Surgery only** and can apply for non-core privileges in OMFS.
- **All privileges applications shall be evaluated by expert committees.**

No. 3: General Remarks

- The above table is not exclusive and the Department of Healthcare Professions (DHP) reserves the right to amend and update the requirements at different intervals without prior notice.
- The above table does not bind DHP or the employer to appoint the applicant to a certain grade.
- The table above doesn't obligate DHP to grant the applicants any specific degrees.
- Holder of a Qualification degree which is higher than the degrees mentioned in the above table will be considered accordingly.
- The post-graduate degree, which is limited for certain duration of time, should be valid at the time of applying for Registration/licensing with DHP.
- DHP reserves the right to ask for recommendation letters if required.
- DHP reserves the right to conduct interviews as part of the evaluation process if required.
- All specialty training programs should be approved by the regulatory authority of the issuing country.
- Registration for specialty degree in dentistry requires completion of a comprehensive and advanced training program in the specialty.

- In determining the eligibility of an applicant for registration in Specialty Scope, applicant shall comply with the following basic requirements:
 - ✓ To have a minimum of five (5) years undergraduate degree (BDS, DDS or equivalent)
 - ✓ The internship program can be considered for completion of the required undergraduate study years in case the Dental college program is less than (5) years
- Holders of master's degrees from any country must submit the transcripts that show the duration of study and program curriculum or equivalent.
- DHP reserves the right to consult an expert panel in the respective specialty whenever required.
- Dentist cannot be registered with double specialties unless they are related but can get privileges for more than one specialty after assessment through a specialized committee.
- DHP reserves the right to ask for additional supporting documents whenever needed.
- Case by case assessment is implemented.
- This policy cancels any previous policies in this regard.
- Healthcare facilities are given the right to grant the title consultant to their Dentists, according to the Guidelines and standards approved by DHP. (Appendix 1)
- The applicant must be reasonably fluent in either Arabic or English or both.
- kindly check the mentioned website for any updates: <https://dhp.moph.gov.qa>

No. 4: Certificates that will not be professionally classified

- Any approved post graduate certificate issued **based on an equivalency** of any other certificate not from the DHP approved qualification list will not be accepted for registration/licensing in the state of Qatar.
- Certificates **of mostly academic nature** and character, the curricula of which do not include patient care, clinical practice and practical training in the field of specialization.
- Health Certificates acquired through honorary training programs or as a locum/visiting dentist or a non-practicing associate or those which are obtained through correspondence and the like.
- Certificates obtained or granted through **affiliation or distance learning /part-time** and contradict the laws of higher education.
- Certificate issued from health unrelated colleges and institutes certificate that are not subject to a training program or that are acquired during work in recognized training centers.
- Registration certificate for obtaining work permits or affiliation (membership) of certain associations that are granted after passing the licensing examination in specific countries such as United States of

America.

- Bridge programs with specific universities made outside the university campus.
- Certificates from Royal College of Physicians and Surgeons in the United States of America.

APPENDIX 1:

Health care facilities have the right to promote their Specialist to Consultant according to the below guidelines and criteria:

- 1- Dentists **should be** licensed in a specialty area by DHP.
- 2- Holders of certificates from **Category 1**, can be promoted to **Consultant title** after completion of **one year** of licensed work experience post qualification degree.
- 3- Holders of certificates from **Category 2**, can be promoted to **Consultant title** after completion of **four years** of licensed work experience post qualification degree.
- 4- Holders of certificates from **Category 2 ****, can be promoted to **Consultant title** after completion of **seven years** of licensed work experience post qualification degree.
- 5- The Specialist should be the **first or second author** for at least **2 articles** published in peer reviewed journals, only one of the articles can be a case report.
- 6- The Specialist should have at least **two recommendation letters** and **satisfactory performance reports** from his current place of work.
- 7- Promotion to consultant title should be through **a committee** from the Medical director, Quality improvement member and a member from Human Resources department.
- 8- All mentioned documents should be available on request from DHP for Auditing purposes.
