1. Introduction

All providers of DHP-accredited CPD activities, including DHP-accredited and non-DHP-accredited CPD provider organizations, are required to develop and conduct those activities in compliance with all established administrative, educational, and ethical DHP-AS CPD activity accreditation standards.

DHP-AS routinely monitors compliance to DHP-AS CPD accreditation standards by means of regular reporting, audit, and live audit processes. Concerns about CPD providers' compliance with the DHP-AS CPD accreditation standards, however, might be reported by a third party or a whistle blower or suspected by the DHP-AS during or after the CPD activity accreditation process.

This policy is intended to be an additional safeguard for the integrity of the DHP-AS CPD activity accreditation system and shall be implemented to deal with any raised concerns related to CPD providers' non-compliance with the DHP-AS CPD activity accreditation standards, policies and procedures.
