To	<ul style="list-style-type: none">• All healthcare facilities focal points in the State of Qatar (Governmental/ Private sectors)• All healthcare practitioners in the State of Qatar (Governmental/Private sectors)
Subject	Enhancement of the Registration/ Licensing Electronic System
Date	23 rd November 2014

“Registration department in Qatar Council for Healthcare practitioners presents to you its compliments”

In pursuit of the Registration Department to improve and upgrade the services provided for health practitioners and stakeholders alike, We would like to announce that the new improved electronic registration and licensing system version was launched on November 17th 2014, which includes many modifications and additional functions, including but not limited to:

- ✓ Initiation of the send back function for incomplete applications, therefore saving time and effort instead of sending many e-mails and avoiding reapplying requests.
- ✓ Interactive comments feature has been added for each of the healthcare practitioners, and the employers that enable them to follow-up on their applications and make a better communication with the registration team.
- ✓ Online Payment option has been activated to accept payments for all the registration and licensing requests, instead of the manual payment, thus saving time and effort.

إدارة التسجيل

REGISTRATION DEPARTMENT

- ✓ Automatic reminder service has been introduced for applicants and employers for registration, licensing and renewal applications.
- ✓ Greater capacity servers are being used to accommodate the large number of healthcare practitioners' applications thus increases the speed of the system and improves performance significantly.
- ✓ By creating a virtual infrastructure using cloud servers specifically for governmental institutions, this will ensure that all our registration/licensing data is kept safe and secure

In addition to the above:

The website of Qatar Council for Healthcare Practitioners (QCHP) has been redesigned and updated to ease usability and accessibility for all end users, thus, ensuring improved functionality and providing quick and user friendly navigation services.

Kindly note that the new website has been designed to be compatible with all smart devices.
